

Understanding English, communication and languages:

We will learn how to construct a biography of a famous person's life.

We will learn to write a story about hiding an animal on a school trip.

Texts

Amelia Earheart—Isabel Sanchez Vegara

How to hide a lion at school— Helen Stephens

Mathematical understanding

Fractions—We will learn how to recognise fractions and find fractions of amounts.

Additive Reasoning—We will learn the place value of two digit numbers, how to partition them and strategies for addition and subtraction.

Multiplicative Reasoning— We will learn how to multiply and divide using facts within the 2,5 and 10 times table.

Scientific and technological understanding

Plants— We will use our Scientific Enquiry skills to carry out an investigation around what plants need to grow.

Materials—We will explore the properties of different materials and use our Scientific Enquiry skills to carry out an investigation of which materials are the most absorbent.

Summer 1 A step back in time! Sycamore Class

Historical, Geographical and social understanding

We will be exploring life in the Victorian Era through the perspective of a child and reflecting on fairness and how things have changed.

We will compare schools, homes and toys with those that we have today.

We will also learn about what impact the Victorian Era has had on our lives today.

RE:

Serving is our first topic this term. We will explore the feast of Pentecost and how the Holy Spirit guides Christians to live their lives.

We will then move onto our topic of Relationships. We will learn about the meaning of Reconciliation and forgiveness.

Role Play

Small world area—Building a train track

Role Play Area—Victorian School/Newsroom

Music

This will be taught weekly by Mrs Nelmes.

Understanding physical development, health and wellbeing:

We have P.E twice a week. We will practice our skills in a variety of athletic activities.

Mrs Turner will teach games.

PSHE

Our unit this term is, **Created to love others.**

We will explore our individual relationships with others and how to keep ourselves safe.

Computing

We will explore how technology has changed over the years and we will present this information through different uses of technology.

As part of this, they will learn the importance of using technology safely and respectfully, keeping personal information private and to identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.

Understanding the arts:

We will design and make a Victorian Shoebox house using appropriate materials. We will carry out the Design, Make and Evaluate Stages.
